

ADVANCED VIDEO EDITING

FULL VISUAL STUDY MANUAL

Course Code	EDA-AVE-127
Level	Intermediate to Advanced
Duration	6 Weeks (19 Lessons)
Certificate	Professional Certificate in Advanced Video Editing
Prerequisite	CapCut Video Editing or equivalent foundation
Learning Format	Advanced Editing Practicals + Multi-Format Final Production

Responsible editing standard: use original, authorised or properly licensed media; obtain appropriate consent; protect private information; preserve truthful context; do not fabricate testimonials, endorsements, events or evidence; label reenactments/simulations when context requires it.

Course Introduction

Advanced Video Editing develops stronger editorial judgment and finishing skills. Learners move beyond basic trimming into story construction, precision editing, multi-angle concepts, advanced sound, colour matching and grading, keyframed motion, graphics, compositing, speed design, multi-format delivery and professional quality control.

Learning Objectives

- Plan an advanced editing workflow and deliverables.
- Make story-focused editorial decisions.
- Organise larger media projects.
- Perform precision timeline editing.
- Understand multi-angle editing.
- Mix dialogue, music and effects.
- Correct and match colour across shots.
- Use controlled motion, graphics and compositing.
- Master and deliver multi-format video projects.

Course Structure

1. Lesson 1: Advanced Editing Workflow and Project Planning
2. Lesson 2: Story Structure and Editorial Decision-Making
3. Lesson 3: Media Management, Proxies and Project Organisation
4. Lesson 4: Advanced Timeline Editing and Precision Trimming
5. Lesson 5: Multi-Angle and Multi-Camera Editing Concepts
6. Lesson 6: Advanced Dialogue and Audio Editing
7. Lesson 7: Music, Sound Effects and Audio Mixing
8. Lesson 8: Colour Correction and Shot Matching
9. Lesson 9: Creative Colour Grading Fundamentals
10. Lesson 10: Keyframes and Controlled Motion
11. Lesson 11: Advanced Text, Titles and Lower Thirds
12. Lesson 12: Overlays, Masks and Compositing Fundamentals
13. Lesson 13: Speed Ramping and Time Manipulation
14. Lesson 14: B-Roll, Cutaways and Visual Continuity
15. Lesson 15: Editing Interviews and Educational Content
16. Lesson 16: Advanced Short-Form and Multi-Format Editing
17. Lesson 17: Accessibility, Ethics and Responsible Editing
18. Lesson 18: Mastering, Quality Control and Delivery
19. Lesson 19: Final Advanced Video Production Project

Lesson 1: Advanced Editing Workflow and Project Planning

Introduction

Advanced Editing Workflow and Project Planning develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of advanced editing workflow and project planning.
- Complete a guided practical for advanced editing workflow and project planning.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

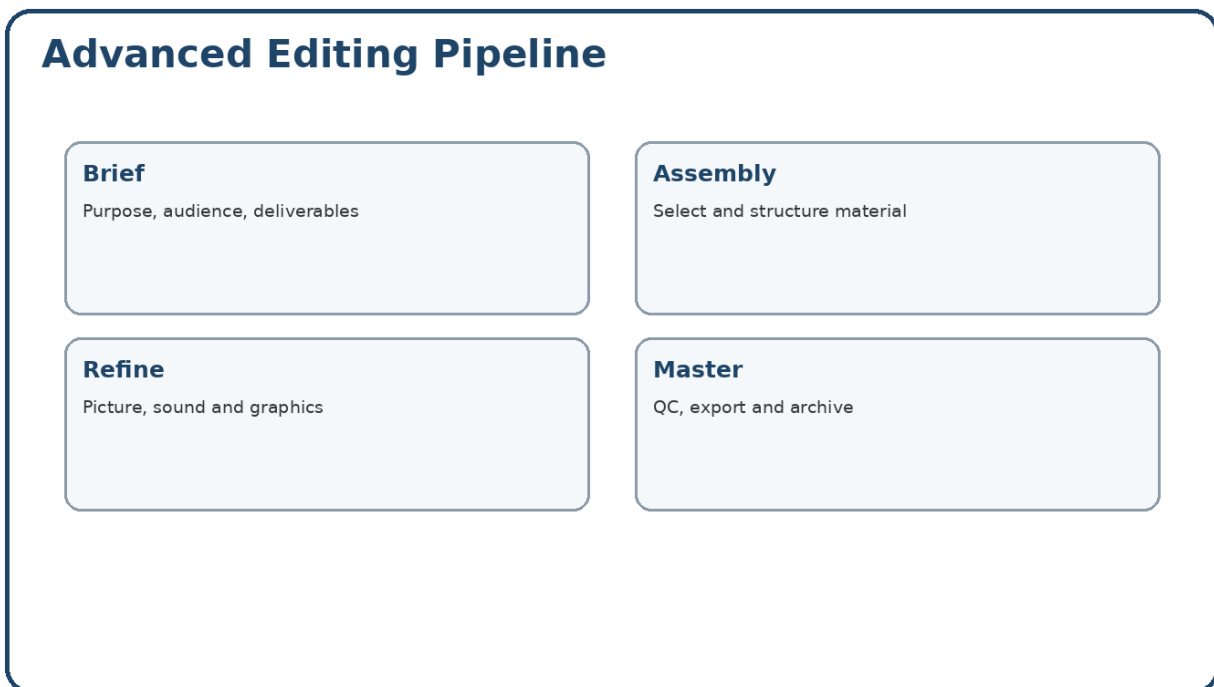

Figure 1: Original instructional visual for Advanced Editing Workflow and Project Planning.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply advanced editing workflow and project planning when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

20. What is the main purpose of advanced editing workflow and project planning?
21. State two advanced editorial practices from this lesson.
22. What continuity, ethics, accessibility or technical mistake should be avoided?
23. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 1 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 2: Story Structure and Editorial Decision-Making

Introduction

Story Structure and Editorial Decision-Making develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of story structure and editorial decision-making.
- Complete a guided practical for story structure and editorial decision-making.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

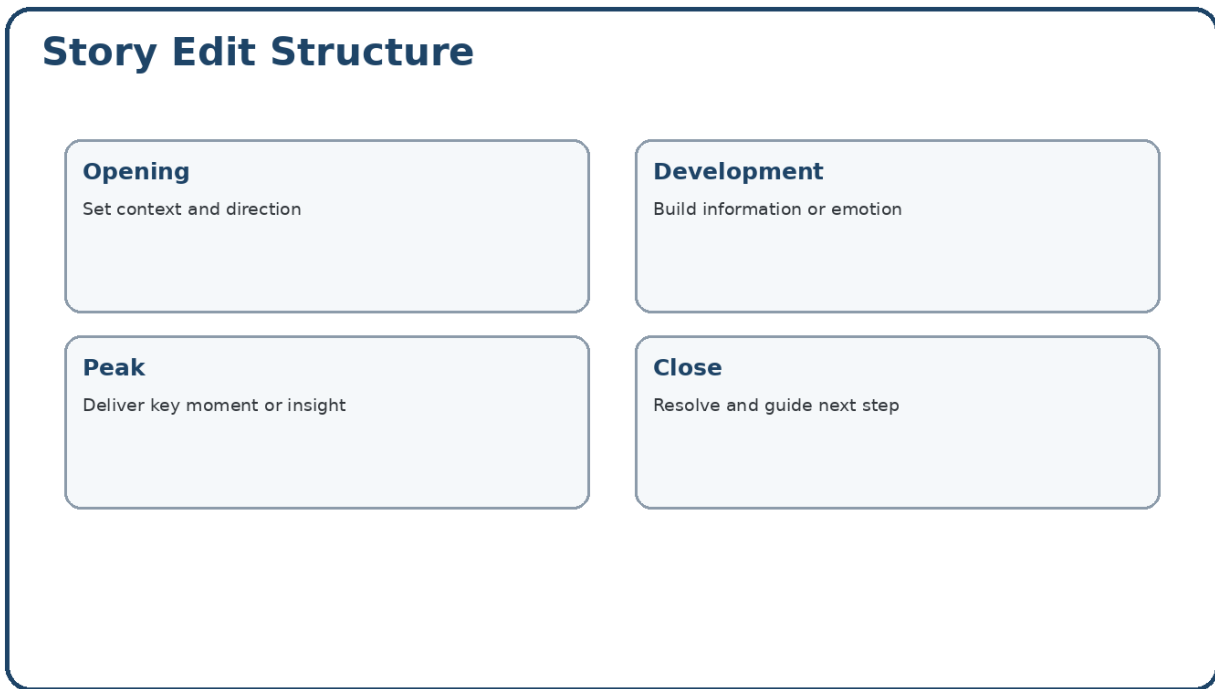

Figure 2: Original instructional visual for Story Structure and Editorial Decision-Making.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply story structure and editorial decision-making when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

24. What is the main purpose of story structure and editorial decision-making?
25. State two advanced editorial practices from this lesson.
26. What continuity, ethics, accessibility or technical mistake should be avoided?
27. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 2 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 3: Media Management, Proxies and Project Organisation

Introduction

Media Management, Proxies and Project Organisation develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of media management, proxies and project organisation.
- Complete a guided practical for media management, proxies and project organisation.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply media management, proxies and project organisation when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

- 28. What is the main purpose of media management, proxies and project organisation?
- 29. State two advanced editorial practices from this lesson.
- 30. What continuity, ethics, accessibility or technical mistake should be avoided?
- 31. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 3 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 4: Advanced Timeline Editing and Precision Trimming

Introduction

Advanced Timeline Editing and Precision Trimming develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of advanced timeline editing and precision trimming.
- Complete a guided practical for advanced timeline editing and precision trimming.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply advanced timeline editing and precision trimming when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

32. What is the main purpose of advanced timeline editing and precision trimming?
33. State two advanced editorial practices from this lesson.
34. What continuity, ethics, accessibility or technical mistake should be avoided?
35. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 4 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 5: Multi-Angle and Multi-Camera Editing Concepts

Introduction

Multi-Angle and Multi-Camera Editing Concepts develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of multi-angle and multi-camera editing concepts.
- Complete a guided practical for multi-angle and multi-camera editing concepts.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

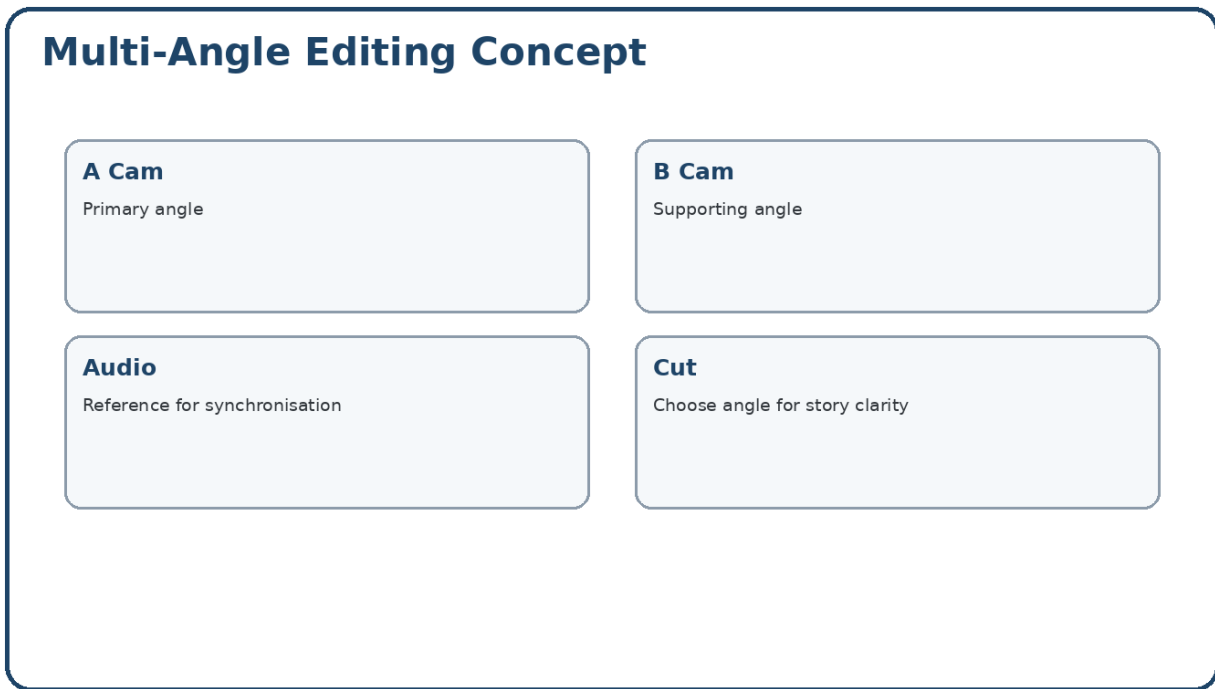

Figure 5: Original instructional visual for Multi-Angle and Multi-Camera Editing Concepts.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply multi-angle and multi-camera editing concepts when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

36. What is the main purpose of multi-angle and multi-camera editing concepts?
37. State two advanced editorial practices from this lesson.
38. What continuity, ethics, accessibility or technical mistake should be avoided?
39. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 5 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 6: Advanced Dialogue and Audio Editing

Introduction

Advanced Dialogue and Audio Editing develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of advanced dialogue and audio editing.
- Complete a guided practical for advanced dialogue and audio editing.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply advanced dialogue and audio editing when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

40. What is the main purpose of advanced dialogue and audio editing?
41. State two advanced editorial practices from this lesson.
42. What continuity, ethics, accessibility or technical mistake should be avoided?
43. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 6 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 7: Music, Sound Effects and Audio Mixing

Introduction

Music, Sound Effects and Audio Mixing develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of music, sound effects and audio mixing.
- Complete a guided practical for music, sound effects and audio mixing.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

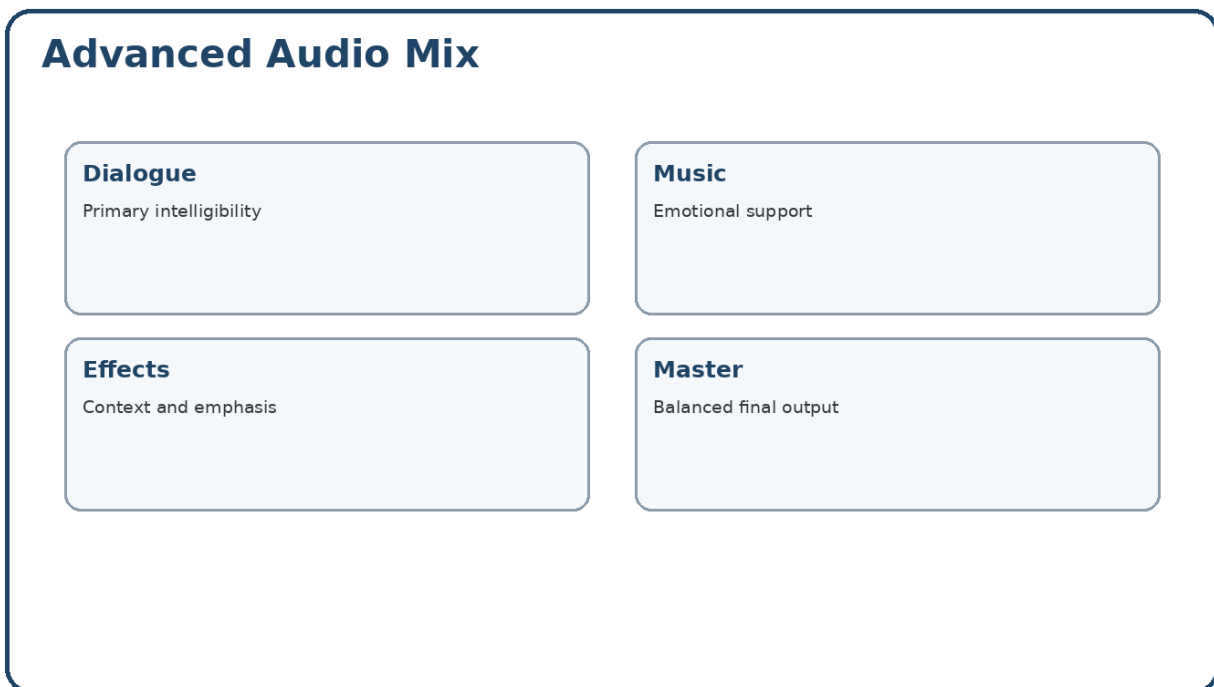

Figure 7: Original instructional visual for Music, Sound Effects and Audio Mixing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply music, sound effects and audio mixing when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

44. What is the main purpose of music, sound effects and audio mixing?
45. State two advanced editorial practices from this lesson.
46. What continuity, ethics, accessibility or technical mistake should be avoided?
47. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 7 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 8: Colour Correction and Shot Matching

Introduction

Colour Correction and Shot Matching develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of colour correction and shot matching.
- Complete a guided practical for colour correction and shot matching.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Correct exposure and white balance before creative grading.

Advanced editing principle: Compare related shots for brightness and colour consistency.

Advanced editing principle: Protect natural skin tones where people are shown.

Advanced editing principle: Avoid extreme adjustments that destroy important image detail.

Advanced editing principle: Separate technical correction from creative look decisions.

Colour Workflow

Correct

Exposure and white balance

Match

Consistency between shots

Grade

Intentional visual tone

Check

Avoid crushed/clipped detail

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply colour correction and shot matching when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

48. What is the main purpose of colour correction and shot matching?
49. State two advanced editorial practices from this lesson.
50. What continuity, ethics, accessibility or technical mistake should be avoided?
51. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 8 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 9: Creative Colour Grading Fundamentals

Introduction

Creative Colour Grading Fundamentals develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of creative colour grading fundamentals.
- Complete a guided practical for creative colour grading fundamentals.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply creative colour grading fundamentals when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

52. What is the main purpose of creative colour grading fundamentals?
53. State two advanced editorial practices from this lesson.
54. What continuity, ethics, accessibility or technical mistake should be avoided?
55. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 9 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 10: Keyframes and Controlled Motion

Introduction

Keyframes and Controlled Motion develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of keyframes and controlled motion.
- Complete a guided practical for keyframes and controlled motion.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

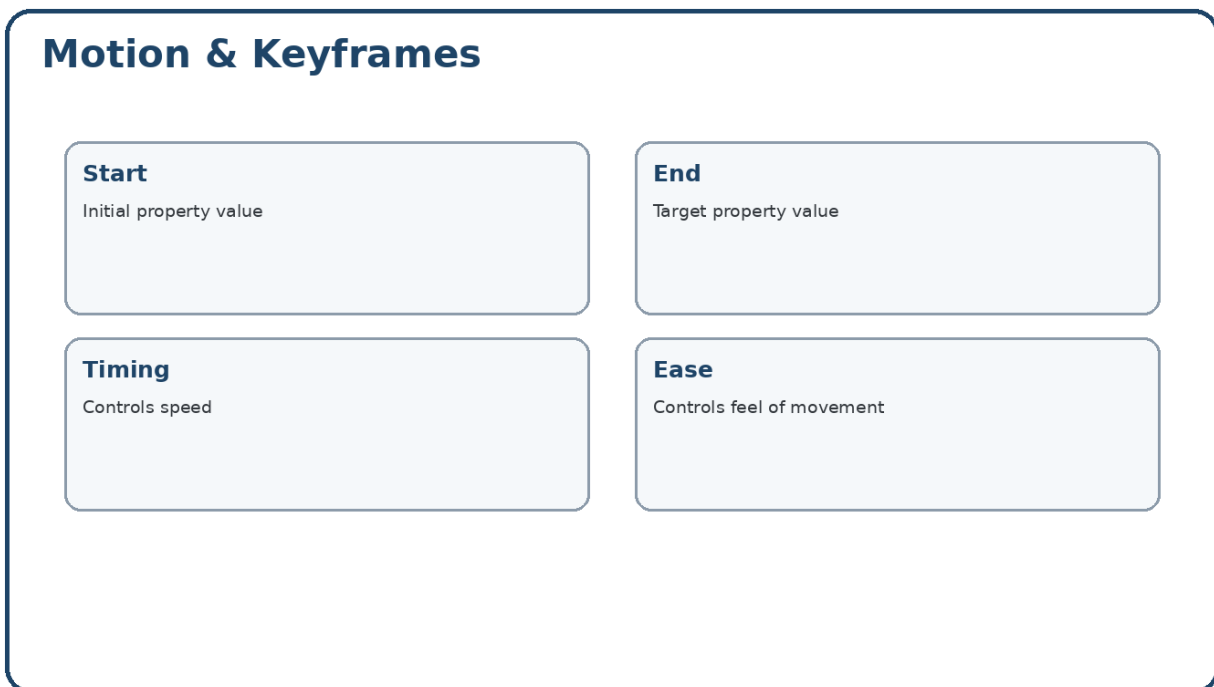

Figure 10: Original instructional visual for Keyframes and Controlled Motion.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply keyframes and controlled motion when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

56. What is the main purpose of keyframes and controlled motion?
57. State two advanced editorial practices from this lesson.
58. What continuity, ethics, accessibility or technical mistake should be avoided?
59. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 10 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 11: Advanced Text, Titles and Lower Thirds

Introduction

Advanced Text, Titles and Lower Thirds develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of advanced text, titles and lower thirds.
- Complete a guided practical for advanced text, titles and lower thirds.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

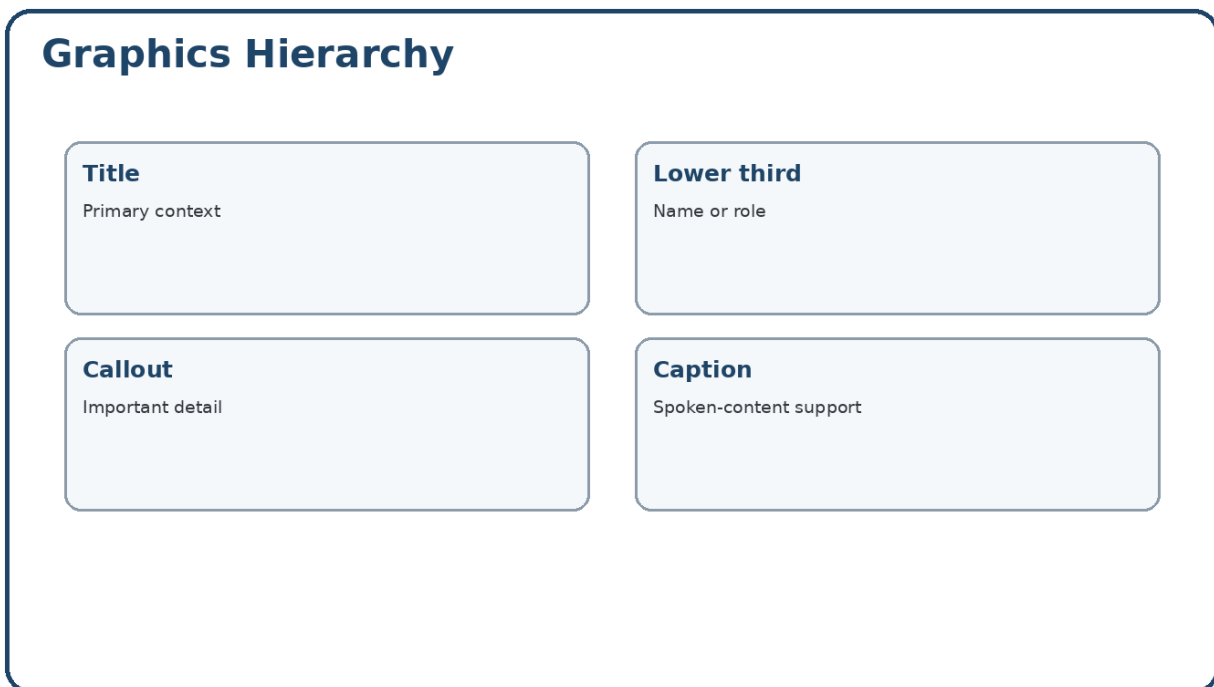

Figure 11: Original instructional visual for Advanced Text, Titles and Lower Thirds.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply advanced text, titles and lower thirds when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

60. What is the main purpose of advanced text, titles and lower thirds?
61. State two advanced editorial practices from this lesson.
62. What continuity, ethics, accessibility or technical mistake should be avoided?
63. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 11 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 12: Overlays, Masks and Compositing Fundamentals

Introduction

Overlays, Masks and Compositing Fundamentals develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of overlays, masks and compositing fundamentals.
- Complete a guided practical for overlays, masks and compositing fundamentals.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

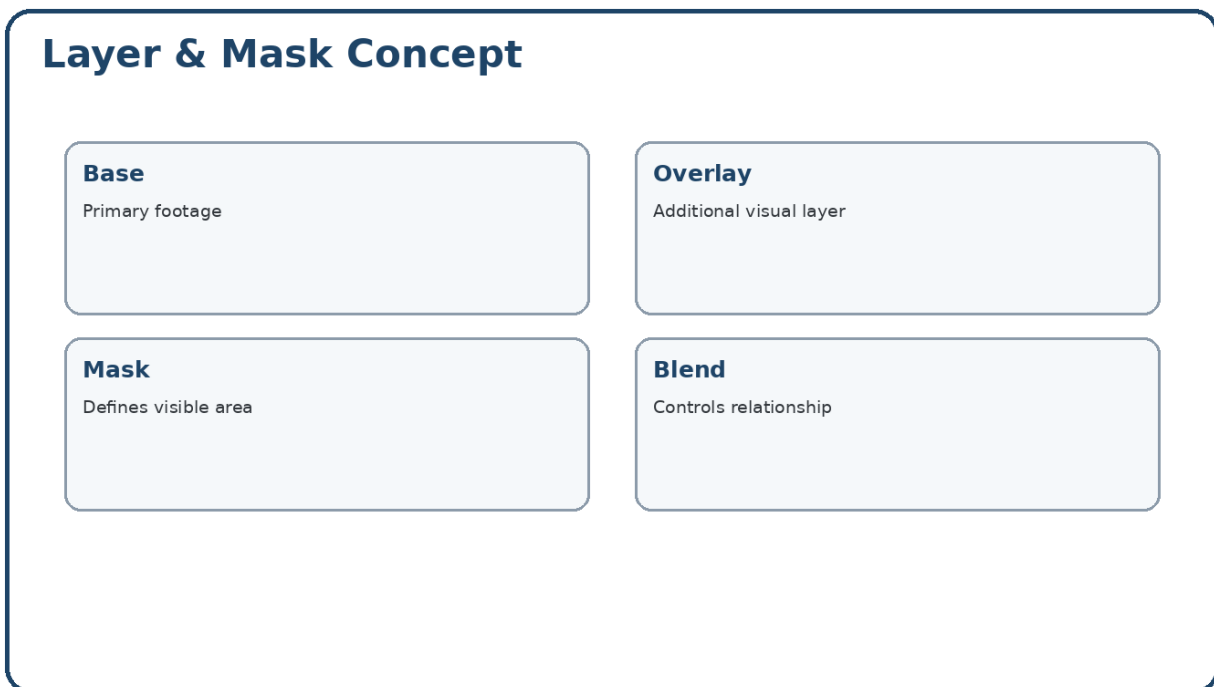

Figure 12: Original instructional visual for Overlays, Masks and Compositing Fundamentals.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply overlays, masks and compositing fundamentals when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

64. What is the main purpose of overlays, masks and compositing fundamentals?
65. State two advanced editorial practices from this lesson.
66. What continuity, ethics, accessibility or technical mistake should be avoided?
67. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 12 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 13: Speed Ramping and Time Manipulation

Introduction

Speed Ramping and Time Manipulation develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of speed ramping and time manipulation.
- Complete a guided practical for speed ramping and time manipulation.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

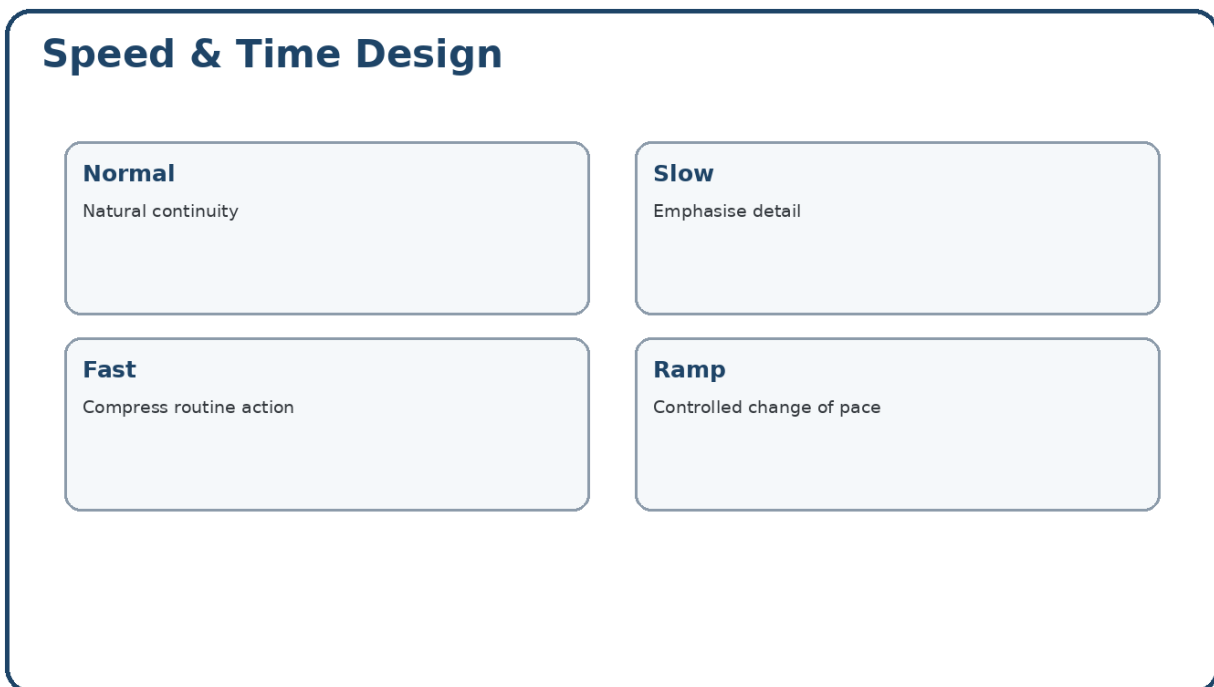

Figure 13: Original instructional visual for Speed Ramping and Time Manipulation.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply speed ramping and time manipulation when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

68. What is the main purpose of speed ramping and time manipulation?
69. State two advanced editorial practices from this lesson.
70. What continuity, ethics, accessibility or technical mistake should be avoided?
71. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 13 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 14: B-Roll, Cutaways and Visual Continuity

Introduction

B-Roll, Cutaways and Visual Continuity develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of b-roll, cutaways and visual continuity.
- Complete a guided practical for b-roll, cutaways and visual continuity.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply b-roll, cutaways and visual continuity when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

- 72. What is the main purpose of b-roll, cutaways and visual continuity?
- 73. State two advanced editorial practices from this lesson.
- 74. What continuity, ethics, accessibility or technical mistake should be avoided?
- 75. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 14 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 15: Editing Interviews and Educational Content

Introduction

Editing Interviews and Educational Content develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of editing interviews and educational content.
- Complete a guided practical for editing interviews and educational content.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply editing interviews and educational content when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

- 76. What is the main purpose of editing interviews and educational content?
- 77. State two advanced editorial practices from this lesson.
- 78. What continuity, ethics, accessibility or technical mistake should be avoided?
- 79. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 15 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 16: Advanced Short-Form and Multi-Format Editing

Introduction

Advanced Short-Form and Multi-Format Editing develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of advanced short-form and multi-format editing.
- Complete a guided practical for advanced short-form and multi-format editing.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

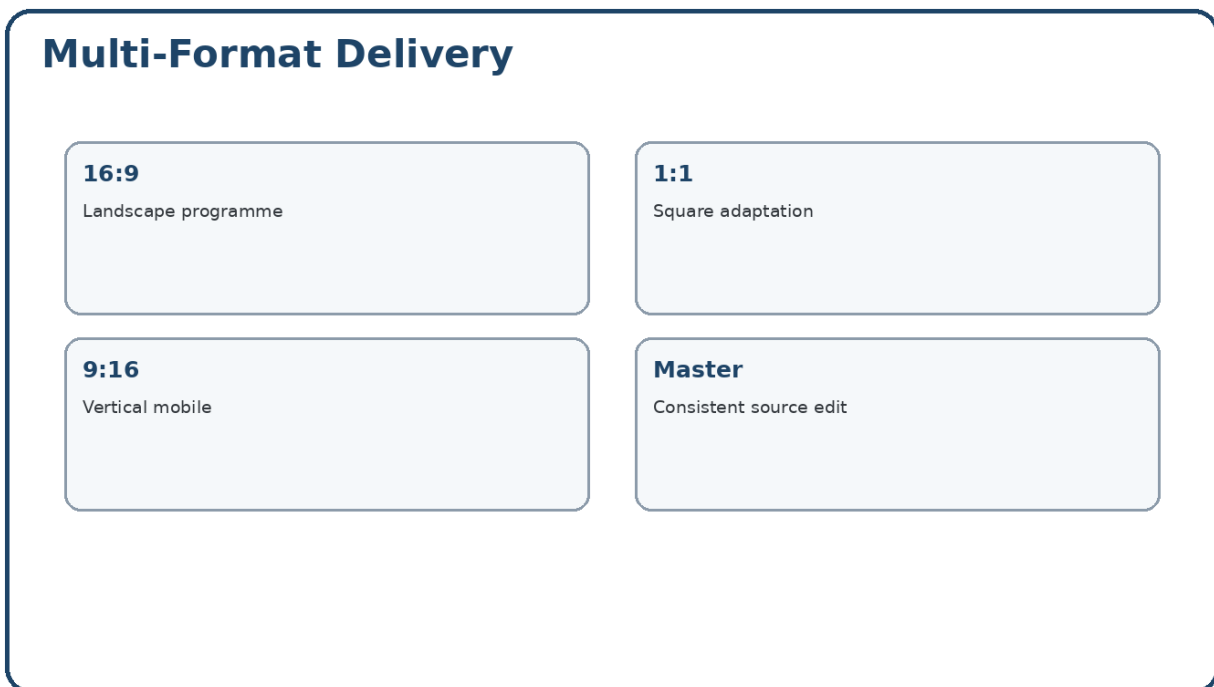

Figure 16: Original instructional visual for Advanced Short-Form and Multi-Format Editing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply advanced short-form and multi-format editing when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

80. What is the main purpose of advanced short-form and multi-format editing?
81. State two advanced editorial practices from this lesson.
82. What continuity, ethics, accessibility or technical mistake should be avoided?
83. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 16 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 17: Accessibility, Ethics and Responsible Editing

Introduction

Accessibility, Ethics and Responsible Editing develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of accessibility, ethics and responsible editing.
- Complete a guided practical for accessibility, ethics and responsible editing.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Do not edit a person's words to create a materially false meaning.

Advanced editing principle: Use captions and graphics accurately.

Advanced editing principle: Obtain appropriate permission for private or identifiable material.

Advanced editing principle: Use licensed music, footage, fonts and graphics.

Advanced editing principle: Consider accessibility through captions, readable text and understandable audio.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply accessibility, ethics and responsible editing when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

- 84. What is the main purpose of accessibility, ethics and responsible editing?
- 85. State two advanced editorial practices from this lesson.
- 86. What continuity, ethics, accessibility or technical mistake should be avoided?
- 87. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 17 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 18: Mastering, Quality Control and Delivery

Introduction

Mastering, Quality Control and Delivery develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of mastering, quality control and delivery.
- Complete a guided practical for mastering, quality control and delivery.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply mastering, quality control and delivery when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

88. What is the main purpose of mastering, quality control and delivery?
89. State two advanced editorial practices from this lesson.
90. What continuity, ethics, accessibility or technical mistake should be avoided?
91. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 18 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Lesson 19: Final Advanced Video Production Project

Introduction

Final Advanced Video Production Project develops professional editorial control. The goal is not to make an edit look complicated, but to make every cut, sound, graphic and visual treatment serve the story, information and intended audience.

Learning Objectives

- Explain advanced principles of final advanced video production project.
- Complete a guided practical for final advanced video production project.
- Apply the technique to an Ethan Digital Academy production scenario.

Teaching Content

Advanced editing principle: Define the intended viewer, story purpose and final deliverables before detailed editing.

Advanced editing principle: Keep the project organised so revisions can be made without losing source material.

Advanced editing principle: Use advanced techniques only when they improve clarity, continuity, emotion or comprehension.

Advanced editing principle: Compare the edit against the original communication objective during review.

Advanced editing principle: Maintain truthful context, media rights, accessibility and technical quality throughout finishing.

Step-by-Step Guided Practical

1. Define the scene or sequence objective and required deliverable.
2. Organise original or authorised media and create a rough assembly.
3. Apply the lesson technique while preserving story clarity.
4. Review picture, sound, text and continuity at normal playback speed.
5. Save a new version, document the change and export an instructor-approved preview.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply final advanced video production project when producing polished course trailers, instructional videos, event recaps and digital-skills campaigns while preserving accurate context and consistent branding.

Review Questions

92. What is the main purpose of final advanced video production project?
93. State two advanced editorial practices from this lesson.
94. What continuity, ethics, accessibility or technical mistake should be avoided?
95. How could this technique improve an Ethan Digital Academy training video?

Assignment

Complete the Lesson 19 advanced editing exercise with original or authorised media. Submit the final preview or instructor-approved evidence, plus a short editorial rationale and version note.

Final Advanced Video Production Project - 100 Marks

Component	Marks	Requirement
Treatment & plan	10	Purpose, audience, story and deliverables.
Media/project organisation	10	Structured source, sequences and versions.
Editorial structure	15	Strong story, pacing and continuity.
Advanced picture edit	15	Precision cuts, B-roll and appropriate motion/time techniques.
Audio mix	15	Clear dialogue, balanced music/effects.
Colour finish	10	Corrected, matched and intentional look.
Graphics & accessibility	10	Readable titles/captions and accurate information.
Multi-format delivery	5	Suitable master and adaptation.
QC, ethics & handoff	10	Rights, truthful context, review and organised delivery.

Course Quiz - 30 Questions

1. What distinguishes advanced editing from basic trimming?
2. What is an editing treatment?
3. Why define deliverables before editing?
4. What is a proxy workflow conceptually?
5. Why use organised versions?
6. What is precision trimming?
7. What is a J-cut or L-cut used to achieve conceptually?
8. What is multi-angle editing?
9. Why is dialogue usually prioritised in a mix?
10. What is audio ducking conceptually?
11. Why must music be licensed?
12. What is colour correction?
13. What is shot matching?
14. What is colour grading?
15. What is a keyframe?
16. What does easing affect?
17. What is a lower third?
18. What is compositing?
19. What is a mask?
20. What is speed ramping?
21. Why use B-roll?
22. What is a cutaway?
23. Why preserve truthful interview context?
24. What is a multi-format master?
25. Why design separately for vertical viewing?
26. Name three video accessibility practices.
27. What is mastering?

28. What is quality control?

29. Why keep an archive of project sources and masters?

30. List six requirements of the final advanced video project.

Final Examination - 100 Marks

Section A - Editorial Planning (20 marks)

Explain treatments, story structure, media management, project organisation and precision editing.

Section B - Sound and Picture Finishing (20 marks)

Explain dialogue editing, music/effects mixing, colour correction, matching and grading.

Section C - Motion and Compositing (20 marks)

Explain keyframes, titles, lower thirds, overlays, masks and time manipulation.

Section D - Advanced Content Editing (20 marks)

Explain B-roll, interview editing, educational content and multi-format short-form production.

Section E - Professional Delivery (20 marks)

Explain accessibility, editing ethics, mastering, quality control, versioning and handoff.

Course Completion Outcome

After successful completion, the learner should be able to plan and organise an advanced video project, make stronger story-focused editorial decisions, perform precision editing, manage multi-angle concepts, mix audio, correct and grade colour, use keyframed motion and layered graphics, adapt content across formats, apply responsible editing and accessibility principles, and deliver quality-controlled final masters.

Professional Practice Checklist

- Plan story and deliverables before detailed editing.
- Keep source media and versions organised.
- Use advanced techniques only when they improve communication.
- Preserve truthful context when editing people and events.
- Use authorised/licensed media and obtain appropriate consent.
- Keep dialogue, captions and graphics understandable.
- Correct before creative colour grading.
- Review every final export from beginning to end.
- Archive approved masters and project evidence.
