

CAPCUT VIDEO EDITING

FULL VISUAL STUDY MANUAL

Course Code	EDA-CVE-126
Level	Beginner to Intermediate
Duration	6 Weeks (19 Lessons)
Certificate	Professional Certificate in CapCut Video Editing
Prerequisite	Digital Literacy recommended
Learning Format	Guided Editing Practicals + Final Multi-Format Video Campaign

Responsible media standard: edit only original, authorised or properly licensed media; obtain appropriate consent before publishing identifiable private people; protect private information; do not fabricate testimonials, endorsements or misleading events; use music, fonts and other assets within their licences.

Course Introduction

CapCut Video Editing teaches learners to plan, organise, edit and export clear digital videos for education, social media and legitimate promotion. The course develops practical timeline editing, audio, captions, transitions, visual correction, vertical design, accessibility, branding and quality-control skills.

Learning Objectives

- Plan a simple video story before editing.
- Navigate a timeline and organise media.
- Trim, split and arrange clips.
- Balance voice, music and effects.
- Create readable titles and captions.
- Use transitions and visual adjustments appropriately.
- Design effective vertical and short-form videos.
- Apply accessibility and brand consistency.
- Export and review a complete video campaign.

Course Structure

1. Lesson 1: Introduction to CapCut and Video Editing
2. Lesson 2: Planning a Video Before Editing
3. Lesson 3: CapCut Workspace, Media and Timeline
4. Lesson 4: Importing and Organising Media
5. Lesson 5: Trimming, Splitting and Rearranging Clips
6. Lesson 6: Pacing, Timing and Story Rhythm
7. Lesson 7: Working with Audio and Voice
8. Lesson 8: Adding Text, Titles and Captions
9. Lesson 9: Transitions and Visual Continuity
10. Lesson 10: Basic Colour and Image Adjustments
11. Lesson 11: Overlays, Picture-in-Picture and Layering
12. Lesson 12: Speed Controls and Simple Motion
13. Lesson 13: Vertical and Short-Form Video Design
14. Lesson 14: Educational and Promotional Video Structure
15. Lesson 15: Accessibility, Captions and Readability
16. Lesson 16: Brand Consistency in Video Content
17. Lesson 17: Export Settings and Quality Control
18. Lesson 18: Editing Workflow, File Organisation and Review
19. Lesson 19: Final CapCut Video Campaign Project

Lesson 1: Introduction to CapCut and Video Editing

Introduction

Introduction to CapCut and Video Editing develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of introduction to capcut and video editing.
- Complete a guided editing practical for introduction to capcut and video editing.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Video Editing Workflow

Plan

Purpose, audience and story

Import

Organise authorised media

Edit

Trim, arrange and refine

Export

Check final video and settings

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply introduction to capcut and video editing to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

20. What is the main purpose of introduction to capcut and video editing?
21. State two professional editing practices from this lesson.
22. What copyright, consent, accessibility or clarity mistake should be avoided?
23. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 1 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 2: Planning a Video Before Editing

Introduction

Planning a Video Before Editing develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of planning a video before editing.
- Complete a guided editing practical for planning a video before editing.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply planning a video before editing to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

24. What is the main purpose of planning a video before editing?
25. State two professional editing practices from this lesson.
26. What copyright, consent, accessibility or clarity mistake should be avoided?

27. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 2 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 3: CapCut Workspace, Media and Timeline

Introduction

CapCut Workspace, Media and Timeline develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of capcut workspace, media and timeline.
- Complete a guided editing practical for capcut workspace, media and timeline.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Timeline Structure

Video

Primary visual clips

Audio

Voice, music and effects

Text

Titles and captions

Playhead

Current editing position

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply capcut workspace, media and timeline to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

28. What is the main purpose of capcut workspace, media and timeline?
29. State two professional editing practices from this lesson.
30. What copyright, consent, accessibility or clarity mistake should be avoided?
31. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 3 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 4: Importing and Organising Media

Introduction

Importing and Organising Media develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of importing and organising media.
- Complete a guided editing practical for importing and organising media.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply importing and organising media to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

32. What is the main purpose of importing and organising media?
33. State two professional editing practices from this lesson.
34. What copyright, consent, accessibility or clarity mistake should be avoided?

35. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 4 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 5: Trimming, Splitting and Rearranging Clips

Introduction

Trimming, Splitting and Rearranging Clips develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of trimming, splitting and rearranging clips.
- Complete a guided editing practical for trimming, splitting and rearranging clips.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Basic Clip Editing

Trim

Shorten clip edges

Split

Divide at a chosen point

Reorder

Change story sequence

Delete

Remove unnecessary material

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply trimming, splitting and rearranging clips to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

36. What is the main purpose of trimming, splitting and rearranging clips?
37. State two professional editing practices from this lesson.
38. What copyright, consent, accessibility or clarity mistake should be avoided?
39. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 5 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 6: Pacing, Timing and Story Rhythm

Introduction

Pacing, Timing and Story Rhythm develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of pacing, timing and story rhythm.
- Complete a guided editing practical for pacing, timing and story rhythm.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply pacing, timing and story rhythm to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

40. What is the main purpose of pacing, timing and story rhythm?
41. State two professional editing practices from this lesson.
42. What copyright, consent, accessibility or clarity mistake should be avoided?

43. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 6 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 7: Working with Audio and Voice

Introduction

Working with Audio and Voice develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of working with audio and voice.
- Complete a guided editing practical for working with audio and voice.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Prioritise understandable speech.

Editing principle: Reduce music when it competes with narration.

Editing principle: Use sound effects selectively and at comfortable levels.

Editing principle: Listen for abrupt cuts, distortion or distracting noise.

Editing principle: Use only audio you created or are authorised/licensed to use.

Figure 7: Original instructional visual for Working with Audio and Voice.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply working with audio and voice to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

44. What is the main purpose of working with audio and voice?
45. State two professional editing practices from this lesson.
46. What copyright, consent, accessibility or clarity mistake should be avoided?
47. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 7 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 8: Adding Text, Titles and Captions

Introduction

Adding Text, Titles and Captions develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of adding text, titles and captions.
- Complete a guided editing practical for adding text, titles and captions.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Figure 8: Original instructional visual for Adding Text, Titles and Captions.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply adding text, titles and captions to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

48. What is the main purpose of adding text, titles and captions?
49. State two professional editing practices from this lesson.
50. What copyright, consent, accessibility or clarity mistake should be avoided?
51. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 8 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 9: Transitions and Visual Continuity

Introduction

Transitions and Visual Continuity develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of transitions and visual continuity.
- Complete a guided editing practical for transitions and visual continuity.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Figure 9: Original instructional visual for Transitions and Visual Continuity.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply transitions and visual continuity to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

52. What is the main purpose of transitions and visual continuity?
53. State two professional editing practices from this lesson.
54. What copyright, consent, accessibility or clarity mistake should be avoided?
55. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 9 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 10: Basic Colour and Image Adjustments

Introduction

Basic Colour and Image Adjustments develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of basic colour and image adjustments.
- Complete a guided editing practical for basic colour and image adjustments.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Basic Visual Correction

Exposure

Manage brightness

Contrast

Separate tones

Colour

Keep natural/intentional

Consistency

Match related clips

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply basic colour and image adjustments to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

56. What is the main purpose of basic colour and image adjustments?
57. State two professional editing practices from this lesson.
58. What copyright, consent, accessibility or clarity mistake should be avoided?
59. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 10 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 11: Overlays, Picture-in-Picture and Layering

Introduction

Overlays, Picture-in-Picture and Layering develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of overlays, picture-in-picture and layering.
- Complete a guided editing practical for overlays, picture-in-picture and layering.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply overlays, picture-in-picture and layering to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

60. What is the main purpose of overlays, picture-in-picture and layering?

61. State two professional editing practices from this lesson.

62. What copyright, consent, accessibility or clarity mistake should be avoided?

63. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 11 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 12: Speed Controls and Simple Motion

Introduction

Speed Controls and Simple Motion develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of speed controls and simple motion.
- Complete a guided editing practical for speed controls and simple motion.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply speed controls and simple motion to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

64. What is the main purpose of speed controls and simple motion?
65. State two professional editing practices from this lesson.
66. What copyright, consent, accessibility or clarity mistake should be avoided?

67. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 12 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 13: Vertical and Short-Form Video Design

Introduction

Vertical and Short-Form Video Design develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of vertical and short-form video design.
- Complete a guided editing practical for vertical and short-form video design.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply vertical and short-form video design to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

68. What is the main purpose of vertical and short-form video design?
69. State two professional editing practices from this lesson.
70. What copyright, consent, accessibility or clarity mistake should be avoided?
71. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 13 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 14: Educational and Promotional Video Structure

Introduction

Educational and Promotional Video Structure develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of educational and promotional video structure.
- Complete a guided editing practical for educational and promotional video structure.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply educational and promotional video structure to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

72. What is the main purpose of educational and promotional video structure?
73. State two professional editing practices from this lesson.
74. What copyright, consent, accessibility or clarity mistake should be avoided?
75. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 14 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 15: Accessibility, Captions and Readability

Introduction

Accessibility, Captions and Readability develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of accessibility, captions and readability.
- Complete a guided editing practical for accessibility, captions and readability.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Use accurate captions for important spoken content.

Editing principle: Keep text large and high-contrast enough to read.

Editing principle: Allow viewers enough time to read on-screen text.

Editing principle: Avoid placing essential text where interface controls may cover it.

Editing principle: Do not rely on audio alone for essential information when a text alternative is practical.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply accessibility, captions and readability to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

76. What is the main purpose of accessibility, captions and readability?
77. State two professional editing practices from this lesson.
78. What copyright, consent, accessibility or clarity mistake should be avoided?
79. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 15 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 16: Brand Consistency in Video Content

Introduction

Brand Consistency in Video Content develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of brand consistency in video content.
- Complete a guided editing practical for brand consistency in video content.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply brand consistency in video content to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

80. What is the main purpose of brand consistency in video content?
81. State two professional editing practices from this lesson.
82. What copyright, consent, accessibility or clarity mistake should be avoided?

83. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 16 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 17: Export Settings and Quality Control

Introduction

Export Settings and Quality Control develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of export settings and quality control.
- Complete a guided editing practical for export settings and quality control.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Figure 17: Original instructional visual for Export Settings and Quality Control.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply export settings and quality control to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

84. What is the main purpose of export settings and quality control?
85. State two professional editing practices from this lesson.
86. What copyright, consent, accessibility or clarity mistake should be avoided?
87. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 17 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Lesson 18: Editing Workflow, File Organisation and Review

Introduction

Editing Workflow, File Organisation and Review develops a practical stage of the editing process. Learners focus on clear communication, purposeful choices and an organised workflow rather than adding effects simply because they are available.

Learning Objectives

- Explain the purpose of editing workflow, file organisation and review.
- Complete a guided editing practical for editing workflow, file organisation and review.
- Apply the skill to an Ethan Digital Academy learning or promotional video.

Teaching Content

Editing principle: Start with the communication goal and intended audience.

Editing principle: Keep only media that supports the story or lesson.

Editing principle: Use editing choices to improve clarity, continuity and pace.

Editing principle: Keep text and audio understandable on the intended device.

Editing principle: Review rights, consent, accuracy and final export quality before publication.

Step-by-Step Guided Practical

1. Choose a short set of original or authorised practice media.
2. Write the purpose and intended viewer in one sentence.
3. Build the rough sequence before adding polish.
4. Apply the lesson technique while keeping the edit simple and readable.
5. Preview from beginning to end, correct errors and save the project.

Ethan Digital Academy Case Study

Ethan Digital Academy can apply final capcut video campaign project to course explainers, digital-skills tips and programme announcements while maintaining accurate information, readable branding and a consistent professional style.

Review Questions

92. What is the main purpose of final capcut video campaign project?
93. State two professional editing practices from this lesson.
94. What copyright, consent, accessibility or clarity mistake should be avoided?
95. How would you apply this lesson to a 30-second Ethan Digital Academy course video?

Assignment

Complete the Lesson 19 video-editing exercise using original or authorised media. Submit the exported preview or instructor-approved evidence plus a short rationale explaining the editing choices.

Final CapCut Video Campaign Project - 100 Marks

Component	Marks	Requirement
Brief & plan	10	Purpose, audience and story outline.
Rough edit	15	Logical clip selection and sequence.
Pacing	10	Appropriate timing and rhythm.
Audio	15	Clear voice and balanced supporting audio.
Text & captions	10	Readable and accurate on-screen text.
Visual polish	10	Consistent correction and restrained transitions.
Vertical/social adaptation	10	Effective mobile-first version.
Accessibility & responsible media	10	Captions, consent, rights and truthful content.
Export & handoff	10	Quality-checked final files and organised project evidence.

Course Quiz - 30 Questions

1. Define video editing.
2. Why plan before editing?
3. What is a timeline?
4. What is a playhead?
5. Why organise imported media?
6. What does trimming do?
7. What does splitting a clip do?
8. What is pacing?
9. Why should voice usually remain understandable over music?
10. Why must music licensing be considered?
11. What is an on-screen title?
12. What are captions?
13. What is a transition?
14. Why should transitions be used selectively?
15. What is basic colour correction?
16. What is an overlay?
17. What is picture-in-picture?
18. What can a speed control change?
19. What is vertical video?
20. Why are safe areas important?
21. What is a short-form hook?
22. Why must a hook remain truthful?
23. Name three accessibility practices for video.
24. Why should brand elements be consistent?
25. What is aspect ratio?
26. Why inspect the exported video?
27. What is file organisation?

28. Why keep project media and exports organised?

29. What is quality control?

30. List six requirements of the final CapCut campaign project.

Final Examination - 100 Marks

Section A - Editing Foundations (20 marks)

Explain planning, workspace, timeline, importing, trimming and pacing.

Section B - Audio and Text (20 marks)

Explain voice, music, sound effects, titles and captions.

Section C - Visual Editing (20 marks)

Explain transitions, colour adjustment, overlays, speed and visual continuity.

Section D - Social and Accessible Video (20 marks)

Explain vertical design, short-form structure, accessibility and branding.

Section E - Workflow and Delivery (20 marks)

Explain project organisation, review, export settings, quality control and final campaign delivery.

Course Completion Outcome

After successful completion, the learner should be able to plan and organise a video edit, use a timeline to trim and arrange clips, balance audio, create titles and captions, apply restrained transitions and visual adjustments, prepare mobile-first content, consider accessibility and media rights, export suitable final files and complete a professional beginner-to-intermediate video campaign.

Professional Practice Checklist

- Plan the story before adding effects.
- Use original, authorised or properly licensed media.
- Obtain appropriate consent before publishing identifiable private people.
- Keep speech and captions understandable.
- Use transitions and effects purposefully.
- Keep promotional claims accurate.
- Check vertical safe areas and readability.
- Watch the complete exported video before publishing.
- Keep project files and approved exports organised.
